CAREER OBJECTIVE

M.Sc. Computer Science graduate with a strong interest in Python backend development and database management. Hands-on experience building web applications and RESTful APIs using FastAPI, SQL, MySQL, and SQLite. Passionate about writing clean, efficient code and solving real-world problems through technology, with strong analytical and problem-solving skills and a drive to contribute to innovative software development projects.

EDUCATION

Pondicherry University, Karaikal Campus

Aug 2024 – May 2026

Master of Science (M.Sc.) in Computer Science • CGPA: 8.42

Bharathidasan University — EGS Pillay Arts and Science College

Aug 2021 – May 2024

Bachelor's Degree • CGPA: 8.16

SKILLS

- SQL queries for data retrieval and manipulation
- Executing SQL queries in Python via MySQL Connector
- File reading, writing, and manipulation in Python
- Python Programming
- Authentication & Authorization (JWT)
- CRUD Application Development
- Database Design & Management
- Python Flask
- Python FastAPI
- Adaptable, fast learner of new technologies

KEY PROJECTS / HANDS-ON PRACTICE

1. Employee Attendance Management System

Tech Stack: FastAPI • SQLite • Jinja2 • HTML/CSS • JavaScript

- Secure employee authentication
- Daily check-in/check-out tracking
- Admin dashboard with attendance analytics
- Employee management (CRUD)
- Excel & PDF report generation
- Role-based access control

2. Two-Factor Authentication (2FA) System

Tech Stack: FastAPI • MongoDB • JWT • Email OTP

- Secure login using JWT authentication
- Email OTP verification
- Password hashing with bcrypt
- MongoDB database integration
- RESTful API architecture

3. Student Management System

Tech Stack: Flask • SQLite • OOP • HTML/CSS

- Student registration & profile management
- Course and enrollment management
- Admin dashboard
- CRUD operations
- Object-Oriented Architecture

4. Resume Builder Web Application

Tech Stack: Python • Flask • SQLite • HTML/CSS

- Dynamic resume creation
- User authentication
- PDF-ready resume generation
- Database-driven resume storage
- Responsive UI

CERTIFICATIONS

Microsoft Excel Using AI Workshop — Office Master	November 2025
Advanced SQL — Great Learning Academy	July 2024

INTERNSHIP

Python Full Stack Web Development Intern — Selva Infotech	Feb 2026 – May 2026
• Developed responsive web applications using Python, Flask, HTML, CSS, JavaScript, and SQLite/MySQL. • Built and integrated RESTful APIs, implemented CRUD operations, and managed backend database connectivity. • Worked on user authentication, session management, form validation, and database-driven web applications. • Gained hands-on experience with Git/GitHub, debugging, code optimization, and software development best practices. • Collaborated on real-world development tasks while following structured software development workflows.	

DECLARATION

I hereby declare that all the information furnished above is true to the best of my belief. I authorize the verification of all information provided in this resume.
